

when I feel sad, disappointed, anxious and anger, I always turn on radio to FM 91.9 listening K-Love. Listening K-Love gives me a lot of encouragement and strength which help me out of my negative emotion. K-Love provides not only music, but also warm stories and encourage messages. If K-Love is replaced by another program in my area, I'd not listen to the radio anymore. It's because there is no other radio program better than K-Love. K-Love is the best radio station I heard.
